

2022 Jasper Harris, Jr. Aviation Scholarship

James Njane

Galvin Flying, WA

I love Aviation because it offers freedom. Aviation is the gateway to the world. Aviation brings people together who might have otherwise never met. Aviation takes us to places we could have only dreamt of going, and of course, the view is great from up there.

I joined RTH in spring of 2021, just a few months after moving to the US. I met with Jesse Hayes, the president at Galvin flying. He told me about the club and a few days later, I joined the group.

The Jasper Harris Scholarship will contribute to my flight hours as I work on my instrument rating. The scholarship came at a time of need, and I am forever grateful to the Red Tailed Hawks for awarding me this scholarship. I look forward to giving back with service to the Red-Tailed Hawks Youth Program and one day as a CFI for the Red-Tailed Hawks Aviation Academy.
