

We need your help!

Help us diversify the aerospace industry.

One thousand individuals giving \$100 gets us half way.

One hundred companies giving \$1000 gets us across the finish line. Be in the number... Stand and be counted.

ONE THOUSAND-ONE HUNDRED!

***We are looking for
1000 individuals and
100 companies to fund
our methodology.***

Track Record of Success

Since 2013, RTH has touched the lives of over 8000 youths, provided over 1500 discovery flights, and invested over \$900,000 in flight training and scholarships.

RTH sponsored 29 student pilots at the BPA "Les Morris" Summer Flight Academy, and 81 cadets in the Red-Tailed Hawks FLY academy.

In total, RTH has contributed to 65 pilot certificates and ratings and is sponsoring 15 more student pilots in the pipeline.

ENGAGE in aerospace industry

EXPOSE to flight environment

EDUCATE in pilot knowledge

EMPOWER with finances

Please Give to RTH

RTH has an annual budget of over \$170,000 to run the year-around youth program, operate three summer camps, execute Flight Lessons for Youth, provide tuition for the BPA summer flight Academy and fund the Jasper Harris, Jr. Aviation Scholarship and the Jesse D. Hayes, Jr. MD STEM scholarship.

RTH is now raising \$200,000 to staff and equip the Red-Tailed Hawks Aviation Academy, Inc. with certified instructors and two additional airplanes. By increasing our fleet to four airplanes and elevating our instruction, RTH will generate revenue to support the growth and development of programs.

RTH opens the eyes of youths!

- We give them a glimpse of those that have flown before them and a kaleidoscope of possible futures to explore.
- We feed those that are hungry for knowledge and water those that are thirsty for experience.
- We equip young minds to make educated choices about their own lives.
- We use aviation to provide practical applications of STEM and empower those that want to pursue an aerospace career or hobby.
- We firmly believe, no matter what they choose to do with their lives, having some pilot knowledge will make them better.

ONE THOUSAND- ONE HUNDRED CAMPAIGN

We are determined to be a numerator in the national equation to multiply the number of those underrepresented in the aerospace industry.

**HELP US MAKE
GENERATIONAL CHANGE.**
